WHEY, OR MILK SERUM,

is deservedly growing in use and repute as one of the most readily available and desirable nutrients for the sick, and as a temporary substitute for whole milk in excessive derangements of infant digestion.

WHEY contains all the salts of milk, the soluble albuminoids and the milk sugar (the caseine and the greater part of the fat only being separated from the milk) when prepared with

FAIRCHILD'S
ESSENCE OF PEPSIN.

Thus a really nutritious fluid food may be surely, speedily, and easily prepared, far richer and more comprehensive in actual nutritive constituents than many costly, so-called "foods," beef elixirs, wines, etc., which have been, over and over again, shown to contain but a mere trace of the characteristic and essential elements of beef, viz., its albuminoids.

FAIRCHILD BROS. & FOSTER,

82 and 84 Fulton St., New York City.

JNO. C. BAKER & CO.'S
STANDARD PREPARATIONS.

ESTABLISHED 1830.
Absolutely Pure and Palatable.
Can be taken where all other Oils have been rejected.

INSIST ON BAKER'S OIL
IN BAKER'S BOTTLES.

BAKER'S EMULSION.
With HYPO-PHOSPHITES of Lime and Soda. Made with unequalled NORWEGIAN OIL, rendering it by common consent the BEST EMULSION IN THE MARKET.

BAKER'S COD LIVER OIL, with EXTRACT OF MALT and HYPO-PHOSPHITES.

VIN MARIANI

"THE STANDARD PREPARATION OF ERYTHROXYLON COCA."

CAREFUL, continued testing, by upwards of seven thousand practitioners in America, whose written opinions over their signatures (in our possession) are fully in accord and clearly prove the efficacy and merits of "VIN MARIANI," may be thus summarized:

"Diffusible stimulant and tonic in anæmia, nervous depression, sequelæ of childbirth, lymphatism, tardy convalescence, general 'Malaise,' and after wasting fevers.

"Special reference to the nervous system, in all morbid states, melancholia, etc.

"Tonic in laryngeal and gastric complications, stomach troubles.

"All cases where a general toning or strengthening of the system is needed.

"The only tonic stimulant without any unpleasant reaction, and may be given indefinitely, never causing constipation.

N. B.—This Wine has been found always uniform and reliable, owing to the selection of finest ingredients and the greatest accuracy in its manipulation. When prescribing, therefore, the Medical Profession are strongly advised to specify "VIN MARIANI," in order to avoid the substitution of imitations often worthless and consequently disappointing in effect.

Please specify VIN MARIANI.

Per case of Half-Dozen Bottles, . . $6.00
Per case of One Dozen Bottles. 12.00

Definite Chemical Compounds

OF SUPERIOR THERAPEUTIC VALUE.

THE NEW HYPNOTIC:

CHLORALAMID—SCHERING.

As a safe and reliable hypnotic Chloralamid is taking a foremost place. Even in cases where the patients have suffered from painful diseases, sleep has been successfully induced by its administration; the effect is different from that of soporifics, in that it is light, refreshing, and free from after symptoms. In epilepsy it has been recently shown to be superior to other remedies generally adopted. The dose varies from 15 to 40 grains, and the hypnotic effect is produced within half an-hour. It is noteworthy that the action of the drug is not deferred, and no craving for it seems to be excited, even by prolonged administration. According to Dr. JOHN GORDON (*Therapist*, 1891, No. 6), Chloralamid proved highly satisfactory in senile insomnia, pulmonary diseases, and hysteria. Another recent contribution to our knowledge of Chloralamid calls attention to its value in quieting the nervous system, and inducing sleep after severe operations. (*Therapist.*)

THE NEW ANTIPYRETIC:

PHENOCOLL Hydrochloride—SCHERING.

Among antipyretics this compound is destined to take a foremost place by virtue of its free solubility which enables it to be very conveniently given and also ensures its prompt and ready absorbtion. According to VON MERING 8 grains reduced the febrile temperature as much as 12 to 16 grains of Antipyrin. HERTEL gave Phenocoll hydrochloride in powder form (in wafer), 1¼ drachms being divided over the 24 hours. In severe articular rheumatism with some fever the remedy has exerted a beneficial action upon the swollen joints, when all other remedies have failed. (*Therapist.*)

THE NEW URIC ACID SOLVENT:

PIPERAZINE—SCHERING.

The most characteristic property of this compound is its power of dissolving uric acid and forming a comparatively freely soluble urate. It takes up in the cold twelve times as much uric acid as carbonate of lithium under the same conditions, and the salt formed (always the neutral urate, even in the presence of excess of acid) is taken up by one-seventh of the volume of water required to dissolve the same quantity of lithium urate. The experience of a number of authors is sufficiently encouraging to justify confidence in the specific curative effect of the remedy Dr. UMPFENBACH believes the compound may prove a valuable diuretic, while some observers record tonic and stimulant effects. The dose is 15 grains per day, divided in acceptable doses, or dissolved in a quart of mineral water which patient may drink *ad libitum*.

MANUFACTURED BY THE

Chemische Fabrik auf Actien (vorm. E. Schering), Berlin.

Sole Agents and Licensees for America:

LEHN & FINK, NEW YORK.

PEACOCK'S BROMIDES

(SYR: BROM: COMP: PEACOCK.)

Each fluid drachm represents 15 grains of the Combined C. P. Bromides of Potassium, Sodium, Calcium, Ammonium and Lithium.

USES: EPILEPSY, UTERINE CONGESTION, HEADACHE, AND ALL CONGESTIVE, CONVULSIVE AND REFLEX NEUROSES.

This preparation produces results, which can not be obtained from the use of commercial Bromide substitutes.

DOSE.—One to two FLUID drachms, in WATER, three or more times a day.

PEACOCK'S FUCUS MARINA

(ELIX: FUCI MAR: PEACOCK.)

From Sea Weed. **Uses: Malaria, Phthisis, Etc.**

An ALLY of quinine—quinine CHECKS the Malarial Chill; Fucus Marina ELIMINATES the Malarial CAUSE; and thus prevents the recurrence of the Chill *after* it has been *checked* by quinine.

An INVALUABLE REMEDY in the treatment of Phthisis—it arrests the decay of lung tissue, diminishes the fever, lessens the cough, abates the soreness in the lungs, improves the appetite, and impedes the progressive emaciation.

DOSE.—One Teaspoonful IN WATER, four times a day.

CHIONIA FROM CHIONANTHUS.

Uses: Biliousness, Jaundice, Dyspepsia, Constipation, and all Diseases Caused by Hepatic Torpor.

CHIONIA stimulates the Liver and restores it to a healthy condition, without debilitating the system by Catharsis; does not purge, per se, but under its use the Liver and Bowels gradually resume their normal functions.

DOSE.—One Fluid Drachm three times a day.

PEACOCK CHEMICAL CO., ST. LOUIS.

A Theory Demonstrated in Practice,—

THE URIC SOLVENT.

For NEUTRALIZING and ELIMINATING URIC ACID from the BLOOD and thereby removing from the system the disorders caused by it, viz:

DIABETES, BRIGHT'S DISEASE, CYSTITIS, SCIATICA, GOUT, RHEUMATISM, DROPSY, NEURALGIA, AND DISEASES OF THE HEART.

THE URIC SOLVENT is a rational and very effective remedy for all RENAL DISORDERS and those derangements and diseases arising from a defective action of the kidneys. Physicians will find in the URIC SOLVENT a GREAT HELPER in the treatment of the above complaints, it being free from all poisonous drugs. Dispensed by all reliable apothecaries.

PRICE, $1.00 PER BOTTLE.

For URIC SOLVENT Circular, Formula, Treatment, etc., address,

FRELIGH'S TABLETS,

(Cough and Constituent),

FOR THE PREVENTION AND CURE OF

PULMONARY PHTHISIS.

FORMULÆ

Cough Tablets.

EACH TABLET CONTAINS

Morph. Sulph. ($\frac{1}{60}$ gr.), Atropiæ Sulph. ($\frac{1}{600}$ gr.), Codeia ($\frac{1}{60}$ gr.), Antimony Tart. ($\frac{1}{25}$ gr.), Ipecac, Aconite, Pulsatilla, Dulcamara, Causticum, Graphite, Rhus-tox, and Lachesis, fractionally so arranged as to accomplish every indication in any form of cough.

Constituent Tablets.

EACH TABLET CONTAINS

Arsenicum ($\frac{1}{60}$ gr.), Precipitate Carb. of Iron, Phos. Lime, Carb. Lime, Silica, and the other ultimate constituents, according to physiological chemistry (normally), in the human organism, together with Caraccas, Cocoa, and Sugar.

PRICE, THREE DOLLARS PER DOUBLE BOX.

Containing sufficient Tablets of each kind to last from one to three months, according to the condition of the patient.

A Connecticut physician writes:

"I am now using your Tablets on a patient (young lady), who has had three quite severe hemorrhages the week previous to the beginning of the same. She has taken one box only, has had no return of the hemorrhage, and has gained four (4) pounds since beginning treatment, besides all rational symptoms have improved wonderfully. I will add that I had tried Ol. Morrh., Syr. Hypophos. Co., etc., with no apparent benefit."

A Virginia physician writes:

"Enclosed find Postal Note for another double box Freligh's Tablets. I used the sample box in three cases, with decided benefit in one, slight improvement in second, and while they did not improve the third case, it being in very advanced stage, there was an amelioration of the distressing symptoms."

A Massachusetts physician, in practice 25 years, writes:

"Send me two double boxes Freligh's Tablets. I have tried the sample box with most excellent results."

A Michigan physician writes:

"I am more than pleased with them. They have not disappointed me once. Dr. C., for whom I ordered a box writes me that he is much improved, and speaks in praise of them. He has genuine Tuberculosis, and while I do not think he can recover, yet I firmly believe the Tablets will prolong his life."

SPECIAL OFFER.

While the above formulæ have been in use, in private practice, over 30 years, and we could give testimonials from well-known clergymen, lawyers, and business men, we prefer to leave them to the unbiased judgment of the profession with the following offer: On receipt of 50 cents, and card, letter-head, bill-head, or other proof that the applicant is a physician in active practice, we will send, delivered, charges prepaid, one of the regular (double) boxes (retail price, Three Dollars), containing sufficient of each kind of Tablets to test them three months (in the majority of cases) in some one case. Card, letter-head, or some proof that the applicant is a physician in active practice, MUST accompany each application. Pamphlet, with full particulars, price-list, etc., on request.

A PHOSPHORIZED

CEREBRO-SPINANT.

(FRELIGH'S TONIC.)

Our Special Offer is still open, to send to any physician, on receipt of 25 cents, and his card or letter-head, half a dozen samples, delivered, charges prepaid. Each sample is sufficient to test it for a week in one case.

As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO., Manufacturers of Physicians' Specialties,

88 Maiden Lane, New York City.

GRIFFITH & CO.'S COMPOUND MIXTURE OF

GUAIAC, STILLINGIA, ETC.

After ten years of thorough trial is now considered by Physicians to be the standard remedy for Acute and Chronic Rheumatism, Gout, Lumbago, Neuralgia, and Kindred Complaints.

TO PHYSICIANS.—Gentlemen: We again respectfully draw your attention to our *COMPOUND MIXTURE OF GUAIAC, STILLINGIA, etc.*

This preparation has been in constant use by many prominent practitioners of medicine for several years, and its beneficial results in the treatment of the diseases indicated, including Syphilitic troubles, have been fully established.

When ordering this preparation, in order to avoid delay or misunderstanding, physicians will please specify "GRIFFITH & CO'S."; or physicians in the city can send their patients direct to our pharmacies, at **No. 67 Third Avenue, cor. 11th Street, or 2241 Third Avenue, cor. 122d Street, New York,** where, at any time, further information will be cheerfully furnished. Out-of-town physicians can order through their druggist or direct from us.

We have hundreds of testimonials from prominent physicians who have prescribed and personally used this mixture. It is manufactured for *PHYSICIANS' PRESCRIPTIONS* only. Always specify GRIFFITH & Co's. If you have an obstinate case of Rheumatism under treatment, inclose one dollar and receive, by express, a regular-size bottle; or we will send, upon request, a sample bottle, providing you will pay express charges. Wholesale Price List—8-ounce size, $10.50 per dozen; 16-ounce size, $20.00 per dozen. In lots of one dozen and upwards, we prepay express charges to any point east of the Rocky Mountains. (*Do not overlook this offer, for you may be pleased and possibly surprised at the result, for the general verdict of the profession is, that if this remedy fails to act on a case, it is a difficult matter to find anything that will.*)

P.S.—The advertising of this article is confined strictly to Medical Journals.

Very respectfully,

GRIFFITH & CO., CHEMIST AND PHARMACISTS,

67 Third Ave., cor. 11th St, 2241 Third Ave., cor. 122d St., New York.

Carried in stock by the principal Wholesale druggists in the U.S.

Retail, 25c. per bottle.

Wampole's Granular Effervescent Bromo-Pyrine.

Containing in Each Heaping Teaspoonful:

Caffein Hydrobromate,	1 Gr.
Antipyrene,	3 Grs.
Sodium Bromide,	15 Grs.

Special Combinations Speedily and Carefully Prepared.

DR. MASSEY'S
Private Sanitarium
212 SOUTH FIFTEENTH ST.,
PHILADELPHIA.

This institution, in addition to complete arrangements for the treatment of Nervous Diseases by rest, electricity, massage, etc., under comfortable surroundings, is specially equipped for the treatment of cases of Fibroid Tumors and other intractable diseases of the pelvic viscera, by the conservative use of strong electric currents. For particulars, address

DR. G. BETTON MASSEY.

212 S. Fifteenth St., Philadelphia.

PARRISH'S HOME FOR INVALIDS, at Burlington, N. J.

JOSEPH PARRISH, M.D., Founder and Physician-in-Chief.
WM. G PARRISH, M.D., Associate.

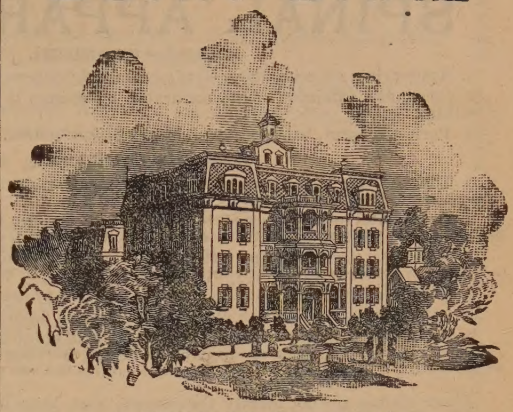
This is emphatically a family home, with the privacy and freedom of domestic life. The patients, being under the counsel and guidance of experienced physicians, may often avoid the alternative of commitment to a public asylum or hospital.

Disappointment, loss of property, grief, mental strain and worry, overwork, excess in the use of stimulants and narcotics, hysteria, are frequently associated with, or complicated by, Neuralgia, Rheumatism, Gout, Dyspepsia, and even Lung troubles, for all of which appliances are available, in the way of Baths—Russian, Medicated, Massage, Electricity, etc., and the *Oxygen Treatment*, the value of which in incipient Throat and Lung Diseases is generally conceded. An attractive feature of the ome treatment is the removal of the family during the summer to a country seat in the vicinity, or to the seaside, mountains, or other resort, accompanied by the superintendent and staff.

Terms are arranged with or for each person according to circumstances and requirements. For further information, call on or address

JOSEPH PARRISH, M.D., Burlington, N. J.

BURN BRAE



A PRIVATE HOSPITAL
FOR MENTAL AND NERVOUS DISEASES.
Founded by the late Robert A. Given, M. D., in 1859.

Extensive and beautiful grounds. Perfect privacy. A pleasant, safe and healthful home. Music, games, open-air amusements. The oldest institution of the kind in the United States. Both sexes received. Arrangements made for chronic cases.

Located a few miles west of Philadelphia, at Primos Station, on the P. W. & B. Railroad.

Physician to Hon. Jas. G. Blaine, says:

"I am using Ale and Beef, Peptonized, quite freely, and recommend my friends of the medical profession to give it to their patients.

DR. I. J. YARROW,
1335 North Broad Street, PHILADELPHIA, says:

"I can't speak too highly of your Ale and Beef, Peptonized. As a Nutrient Tonic in cases *convalescing from Fevers* and other *Wasting Diseases* it has no equal. I bespeak for it a grand success."

DR. MEIGS CASE'S
SPINAL APPARATUS.

MEANS AFFORDED.

1. Appropriate exercise under elast'c extension, with no restrictive appliance.
2. Continued extension made endurable by change in position, sitting, standing, or walking.
3. Perfect support, balance, and guidance in locomotion.

RESULTS OBTAINED.

1. The absolute and speedy cure, without deformity, of recent cases of Pott's Disease and Lateral Curvature.
2. Immediate relief, followed by permanent cure, in acute Pott's Disease, either before or after supervention of abscess or paraplegia.
3. Deformity lessened, and attending complications alleviated in all chronic curvatures in adults or youth.
4. Normal growth stimulated in children dwarfed by disease.
5. Spinal irritation relieved, and ultimately, with its causes, removed.
6. Remarkable improvement in the condition of children suffering from defective innervation, lack of muscular power or nervous inco-ordination, with inability to articulate distinctly and to control the use of the limbs.

These claims are not merely theoretical; they have been abundantly established by actual use of the apparatus.

Fig. 1.

THE "MASTER"
SURGICAL ELASTIC STOCKINGS,

FOR VARICOSE VEINS, WEAK AND SWOLLEN JOINTS, DROPSY OF THE LIMBS, SPRAINS, ETC.

Provided with the Patent Non-Elastic **STAYS AND ADJUSTING LOOPS**, by the aid of which they can be drawn on easily, like pulling on a boot. They will last much longer than the old style, as the stays prevent them from being torn apart in drawing them on. All kinds and sizes in thread or silk elastic.

Fig. 1.—The Old Style discarded on account of pulling apart, while the elastic is still in good condition.
Fig. 2.—The New Style cannot pull apart and consequently lasts until worn out.

BROMIDIA

THE HYPNOTIC.

FORMULA.—Every fluid drachm contains fifteen grains EACH of Pure Chloral Hydrat. and purified Brom. Pot. and one-eighth grain EACH of gen. im. ext. Cannabis Ind. and Hyoscyam.

DOSE.—One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or Pain-relieving Principle of Opium, the Narcotic and Convulsive Elements being Eliminated. It has Less Tendency to Cause Nausea, Vomiting, Constipation, etc.

INDICATIONS.—Same as Opium or Morphia.

DOSE.—ONE FLUID DRACHM—(represents the Anodyne principle of one-eighth grain of Morphia.)

IODIA

THE ALTERATIVE AND UTERINE TONIC.

FORMULA.—Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—One or two fluid drachms (more or less as indicated) three times a day, before meals.

INDICATIONS.—Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions and General Uterine Debility.

To whom all orders for samples must be addressed.

SVAPNIA IS FOR SALE BY DRUGGISTS GENERALLY.

THE BEST ANTISEPTIC
FOR BOTH INTERNAL AND EXTERNAL USE.

ANTISEPTIC. PROPHYLACTIC. DEODORANT.

LISTERINE

NON-TOXIC. NON-IRRITANT. NON-ESCHAROTIC.

FORMULA—Listerine is the essential antiseptic constituent of Thyme, Eucalyptus, Baptisia, Gaultheria and Mentha Arvensis, in combination. Each fluid drachm also contains two grains of refined and purified Benzo-boracic Acid.

DOSE—Internally: One teaspoonful three or more times a day (as indicated) either full strength, or diluted, as necessary for varied conditions.

LISTERINE is a well-proven antiseptic agent—an antizymotic—especially adapted to internal use, and to make and maintain surgical cleanliness—asepsis—in the treatment of all parts of the human body, whether by spray, irrigation, atomization, or simple local application, and therefore characterized by its particular adaptability to the field of

PREVENTIVE MEDICINE—INDIVIDUAL PROPHYLAXIS.

Diseases of the Uric Acid Diathesis.

LAMBERT'S

LITHIATED HYDRANGEA

KIDNEY ALTERATIVE—ANTI-LITHIC.

FORMULA—Each fluid drachm of "Lithiated Hydrangea" represents thirty grains of FRESH HYDRANGEA and three grains of CHEMICALLY PURE Benzo-Salicylate of Lithia. Prepared by our improved process of osmosis, it is INVARIABLY of DEFINITE and UNIFORM therapeutic strength, and hence can be depended upon in clinical practice.

DOSE—One or two teaspoonfuls four times a day (preferably between meals).

Urinary Calculus, Gout, Rheumatism, Bright's Disease, Diabetes, Cystitis, Hæmaturia Albuminuria, and Vesical irritations generally.

We have much valuable literature upon { GENERAL ANTISEPTIC TREATMENT, LITHEMIA, DIABETES, CYSTITIS, ETC. } To forward to Physicians upon request.

LAMBERT PHARMACAL CO., ST. LOUIS, MO.

GOOD RESOLUTIONS FOR 1892.

RESOLVED, That we, the Medical Profession, acknowledge our indebtedness to Dr. CARL L. JENSEN as the pioneer in preparing for us a pepsin which completely overcame the objectionable features of the earlier and crude forms, and gave the initial impetus to its many uses.

RESOLVED, That crystal pepsin having been long submitted to many and severe tests, both chemical and clinical, we acknowledge JENSEN'S pepsin to possess great digestive power, retaining its strength permanently; that being soluble, it is remarkably speedy and potent in action, and that it has uniformly given us the best satisfaction, whether used internally or externally.

Carl L. Jensen's

RESOLVED, That JENSEN'S pepsin is entitled to its well earned reputation, and that we will not give our support to those who wrongfully attempt to profit by Jensen's discovery, his years of labor, and large expenditure of money; we, therefore, discountenance the use of such pepsins as are imitations of Jensen's process and product.

RESOLVED, That as JENSEN'S pepsin has been proved the BEST in the market, we, therefore, recognize it as the STANDARD.

RESOLVED, That in our further use of pepsin we will individually and as a body prescribe and use JENSEN'S pepsin in our practice and in our endeavors to enlarge the field of its usefulness.

RESOLVED, That a copy of these resolutions be printed in all the leading Medical Journals and that the name and address of the manufacturers be given, thus:

CARL L. JENSEN CO.,
100 Maiden Lane, New York.

Send for "Important Notes on Pepsin," and samples.

APIOLIN-CHAPOTEAUT.

The True Active Principle of Parsley.

Professor Laborde's (Paris) experiments on animals indicate that it "stimulates the circulatory apparatus, causing uterine vascular congestion and excitement of the reflex and vaso-motor centres. The general conclusion, therefore, from a practical point of view, is that the drug is indicated in certain cases of genito-spinal atony and especially in dysmenorrhœa.—*Un. Med. Mag.*

Shoemaker's Materia Medica and Therapeutics says:

"In cases of scanty or deficient menstruation with pain, etc., one capsule can be given after meals, thrice daily for a week before the expected period, as recommended by Dr. Fordyce Barker.

℞ Apiolini grm. IV. (about ʒj),
ft. Capsule No. xx (Chapoteaut).
Sig: Take three each day during the week preceding menstruation.

"It is especially appropriate when amenorrhœa depends upon anæmia."

Dr. R. Hill, before the Washington, D.C., Medical Society, Feb. 18, 1891, reported five cases of dysmenorrhœa treated by him at the Central Dispensary and concludes the paper in these words: "Apiolin is decidedly the most reliable drug that I have yet used in dysmenorrhœa. In all the cases I have so treated, relief has invariably resulted.

In phials of 24 capsules containing 20 centigrammes of Apiolin in each, $1.00.

MORRHUOL.

Morrhuol (Extractum Olei Morrhuæ Alcoholicum), is dispensed in capsules, each of which represents the medicinal qualities of one teaspoonful of Cod Liver Oil.

PRINCIPAL EFFECTS.—Increase of appetite, abatement of cough, regularity of digestion and stools, promotion of sound sleep, and strength.

THERAPEUTIC APPLICATION.—In Bronchitis, Rickets, Scrofula, and wherever Cod Liver Oil is usually exhibited with advantage.

Professor German Sée says: "I employ with success a special extract of Cod Liver Oil known as Morrhuol, one gramme of which represents 25 of the crude drug. It is certain that this remedy is not only tolerated but absorbed, and that its anti-emaciative properties are the same as the oil."—*Regime Alimentaire.*

Dr. Lafage writes: "Under the influence of Morrhuol (6 to 8 capsules in 24 hours) the cough is rapidly lessened in violence, the appetite returns, the assimilation of food becomes more perfect, the complexion improves in tint and the patient experiences an increase of strength."—*Bulletin Thérapeutique.*

One hundred capsules, $1.00.

MORRHUOL CRÉOSOTÉ.

"By dissolving pure creosote in Morrhuol, which is not fatty, but has all the remedial properties of Cod Liver Oil, the assimilation of creosote is considerably facilitated.

"*Morrhuol Créosoté* (*Chapoteaut*) is dispensed in small, spherical capsules containing in each three grains of Morrhuol (the active principle of Cod Liver Oil), with one grain of pure beechwood creosote (the richest in guaiacol).

"While partaking of the hyperalimentary character of Cod Liver Oil, and of the specific microbicide action of creosote, we have in *Morrhuol Créosoté* a remedy which will prove under suitable hygienic conditions to be of great value in the treatment of pulmonary phthisis."—*Tribune Medicale*, Jan., 1889.

Original bottles, $1.00.

SANTAL-MIDY.

In gonorrhœa and all forms of urethritis *Santal-Midy* replaces copaiba, cubebs, and the ordinary remedies, without producing eructations, offensive odor, or diarrhœa, and the discharge is reduced to a slight oozing in 48 hours.

In chronic catarrh and suppurating nephritis, *Santal-Midy* has a soothing action on the mucous surfaces, it rapidly diminishes the secretion of pus, it assists the elimination of urine in nephritic colic and cures the most obstinate cases of cystitis and inflammation of the neck of the bladder.

Dr. Posner stated before the Berlin Medical Society: "Much depended on the purity of Sandal Oil, many qualities of which are found in commerce. The best form was the French preparation known as *Santal-Midy*, put up in elegant little capsules, which were easily taken and well supported."—*Medical Record.*

Santal-Midy is distilled from the best Mysore sandal wood, and is dispensed in small, spherical capsules. Dose, 6 to 12 capsules daily. Original bottles contain 40 capsules. $1.00.

THE ABOVE ARE MANUFACTURED IN THE LABORATORIES OF

RIGAUD & CHAPOTEAUT, Paris.

Importers, E. FOUGERA & CO., New York.

THE FIRST RAW FOOD EXTRACT.

(Introduced to the Medical Profession in 1878.)

BOVININE

THE VITAL PRINCIPLES OF BEEF CONCENTRATED.

CONTAINING 26 PER CENT. OF COAGULABLE ALBUMEN.

AN IDEAL FOOD. PALATABLE. KEEPS PERFECTLY.

BOVININE consists of the Juices of Lean Raw Beef obtained by a mechanical process, neither heat nor acid being used in its preparation. The nutritious elements of lean raw beef are thus presented in a concentrated solution, no disintegration or destruction of the albumen having taken place. The proteids in solution amount to 26 per cent. of the weight of the preparation, and give to it the great dietetic value it possesses in all conditions where a concentrated and readily assimilable food is needed.

BOVININE is easily digested and COMPLETELY absorbed from the intestinal tract, thus furnishing an extremely valuable nutrient in Typhoid Fever, after surgical operations in the abdominal regions, in all diseased conditions of the intestinal tract characterized by ulceration or acute and chronic inflammation, and in diarrhœic complaints.

BOVININE, containing as it does all the nutrient properties of lean raw beef in a highly concentrated form, furnishes to the Medical Profession a reliable and valuable aid to treatment in Phthisis, Marasmus of both young and old, in all wasting diseases, in continued fevers, and in supporting treatment.

BOVININE, on account of its BLOOD-MAKING PROPERTIES is *especially* of service after surgical operations, in cases of severe injuries attended with great loss of blood, and in the puerperal state.

BOVININE, for rectal feeding, is unsurpassed in excellence, having been used for weeks continuously with no irritation or disturbance resulting. The most satisfactory results from its use as an enema are obtained by adding to each ounce of **BOVININE** ten grains of Pancreatic Extract and two ounces of water. This should be well mixed and injected slowly. No preparation of opium is necessary in the enema.

SAMPLES will be furnished to any member of the Medical Profession free, carriage paid, upon application to the company.

PREPARED ONLY BY

OR

Carnrick's Kumyss Tablets

A PRODUCT OF PURE, SWEET MILK, PALATABLE, NUTRITIOUS,
EASILY DIGESTED,
AND WHEN DISSOLVED IN WATER FORMS
A DELICIOUS EFFERVESCENT KUMYSS.

Put up in air-tight bottles, in two sizes; the larger holding sufficient Tablets for seven twelve-ounce bottles, and the smaller sufficient for three twelve-ounce bottles of Kumyss.

THIS PREPARATION is presented to the Medical Profession in the convenient form of Tablets, and will be found superior in every respect to ordinary *Kumyss*, *Wine of Milk*, *Fermented Milk*, or any similar preparation.

Kumysgen when prepared for use contains every constituent of a perfect Kumyss.

Kumysgen is made from fresh, sweet milk, and contains fully thirty per cent. of soluble casein, which is double the amount found in ordinary Kumyss preparations.

Kumysgen being in Tablet form, will keep indefinitely, is easily and readily prepared, less expensive than the ordinary variable and perishable Kumyss, and its *fermentative action* may be regulated at will, thus rendering it available at all times and under all circumstances.

Clinical tests gathered from every quarter of the globe attest its special value in all cases of *Gastric* and *Intestinal Indigestion* or *Dyspepsia*, *Pulmonary Consumption*, *Constipation*, *Gastric and Intestinal Catarrh*, *Fevers*, *Anæmia*, *Chlorosis*, *Rickets*, *Scrofula*, *Vomiting in Pregnancy*, *Bright's Disease*, *Intestinal Ailments of Infants*, *Cholera Infantum; or young children and for convalescents from all diseases.*

The casein being finely subdivided, it is especially valuable for all who require an easily digested or a partially digested Food.

Kumysgen is a delicious effervescent Food-Beverage, relished alike by the sick or well.

Kumysgen is tonic, stimulant, diuretic, highly nutritious, easily digested, perfectly palatable, and always *permanent* and *uniform* in strength.

Platt's Chlorides,

The True Disinfectant.

Eleven years of practical daily use, by tens of thousands of intelligent physicians, and by hundreds of thousands of careful housekeepers, has established beyond doubt the value, the usefulness, and the superiority of Platt's Chlorides.

An odorless liquid, clean, stainless, powerful, efficient, and economical, it is peculiarly adapted to all the sanitary needs of the sick-room, and the hygienic demands of the household.

Platt's Chlorides is sold in quart bottles only, and by nearly every apothecary in every city, town or village in the United States. Should there be any practicing physician anywhere who m aynot as yet personally know its value, a sample with descriptive circulars, etc., will be gladly furnished free. Address, giving both Post and Express Offices,

HENRY B. PLATT, 36 Platt St., N. Y.

JOHNSTON'S FLUID BEEF.

This preparation of beef has won the favor of medical men and others who have witnessed its beneficial effects. Whilst all other extracts of beef contain only the soluble elements of the flesh, and are, therefore, useful only for their *stimulating* effects on the system, JOHNSTON'S EXTRACT (or FLUID BEEF) contains within itself the entire *nutritive* properties of the best beef, assuring both the *stimulating* and *strengthening* properties of a meat diet.

It is *unmedicated*, and is not offered as in any sense a medicine. Dr. Harkness, whose analysis we present, pronounces JOHNSTON'S FLUID BEEF a *perfect food.*

By WM. HARKNESS, F.C.S.L., Analytical Chemist to the British Government.

LABORATORY, Somerset House, London, Eng.

I have made a very careful chemical analysis and microscopical examination of JOHNSTON'S FLUID BEEF, and find it to contain in every 100 parts—

Moisture,	26.14	
Albumen and Gelatin,	21.81	Nitrogenous or
Fibrin in a readily-soluble form,	37.48	flesh-forming food.
Ash or Mineral Matter,	14.57—100.00.	

The mineral matter is rich in phosphates. The microscopical examination shows the FLUID BEEF to contain good sound beef, ground to a very fine powder. There is not the slightest trace of fungus, spores, or any other organism which would tend to produce decomposition. I consider this a most valuable preparation *combining, as it does, a concentrated Extract of Beef with the solid beef itself,*—the latter being in a form easily digested.

JOHNSTON'S FLUID BEEF IS A SUBSTANTIAL FOOD FOR BRAIN, NERVE, BONE AND MUSCLE.

JOHNSTON'S FLUID BEEF IS THE HIGHEST FORM OF NUTRIMENT ADAPTED TO THE FEEBLEST DIGESTIVE POWERS.

Many of our most eminent physicians are prescribing this Extract, and have testified their satis action as to the results obtained. GENERAL AGENTS FOR THE UNITED STATES,

A MENSTRUUM.

HORSFORD'S ACID PHOSPHATE.

This preparation has been found especially serviceable as a menstruum for the administration of such alkaloids as morphine, quinine and other organic bases which are usually exhibited in acid combination.

The admixture with pepsin has been introduced with advantage when indicated.

The Acid Phosphate does not disarrange the stomach, but, on the contrary, promotes in a marked degree the process of digestion.

Dr. R. S. MILES, Glencoe, Minn., says: "I use it in a great many cases as a menstruum for quinine, when an acid is necessary."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.

Prepared under the direction of Prof. E. N. HORSFORD, by the

QUICKINE

OUR NEW ANTISEPTIC, ANTIPYRETIC AND ANTIZYMOTIC.

IS RAPIDLY COMING INTO DAILY USE.

DR. CHICHESTER writes: "I get splendid results from its use. Quickine is a great convenience, of inestimable value in a physician's office."

DR. J. B. CONKLIN writes: "It has no equal."

DR. S. N. MARSHALL writes: "I have been practicing medicine forty years. In all that time I have never found a remedy so gratifying. Its effect is immediate."

DR F. E. MILLER writes: "Every physician in the civilized world will be glad to use it"

We have received reports already from over 1000 physicians recommending the use of **QUICKINE** in diseases of the throat, nose, eye, and ear, parasitical skin diseases, sores, ulcers, etc., used externally as a spray, gargle, injection, wash, etc., and in the various fevers and germ diseases used internally.

QUICKINE is put up in one style only, 8 oz. bottles, and we guarantee its absolute accuracy and uniformity. It is pronounced an ideal remedy for a physician's use, both in his office business and in prescribing. Is advertised strictly and only to the medical profession, and sold by first class druggists everywhere at about 40 cents a bottle. Pamphlet and testimonials mailed free. DISEASES OF THE SKIN,

By JOHN V. SHOEMAKER, A.M., M.D.,

Professor of Skin and Venereal Diseases in the Medico-Chirurgical College and Hospital of Philadelphia; Physician to the Philadelphia Hospital for Diseases of the Skin; Member of the American Medical Association, of the Pennsylvania and Minnesota State Medical Societies, of the American Academy of Medicine, and of the British Medical Association; Fellow of the Medical Society of London.

8vo. With Six Chromo-Lithographs and Numerous Engravings. Price, in Cloth, $5.00, Postage Prepaid.

"It is everything a text book should be, concise, clear, exhaustive, and well illustrated."—*Nashville Journal of Medicine and Surgery.*

"This book has an advantage, for the general reader, over most works on diseases of the skin, in that the new dermatological technical words and phrases are dispensed with as much as possible. The treatment recommended is such as almost any practitioner may carry out."—*Journal of the American Medical Association.*

"The descriptions of the clinical features of the different diseases, their differential diagnosis, etiology, and pathology are clear, concise, and sufficiently complete. The therapeutical part of the book constitutes its distinctive and most noteworthy feature."—*Journal of Cutaneous and Genito Urinary Diseases.*

"The description of the therapeutics of the drugs and substances employed is very full, and leaves nothing to be desired."—*London Medical Press and Circular.*

THE F. A. DAVIS CO., Medical Publishers, 1231 Filbert St., Philadelphia, Pa.

DR. McMUNN'S ELIXIR OF OPIUM

AN INVALUABLE DISCOVERY IN THE PREPARATION OF OPIUM.

This is the Pure and Essential Extract from the Native Drug.

It contains all the valuable medicinal properties of Opium in natural combination, to the exclusion of all its noxious, deleterious, useless principles upon which its bad effects depend.

It possesses all the sedative, anodyne, and antispasmodic powers of Opium

To produce sleep and composure;

To relieve pain and irritation, nervous excitement and morbid irritability of body and mind

To allay convulsive and spasmodic actions, etc., etc.

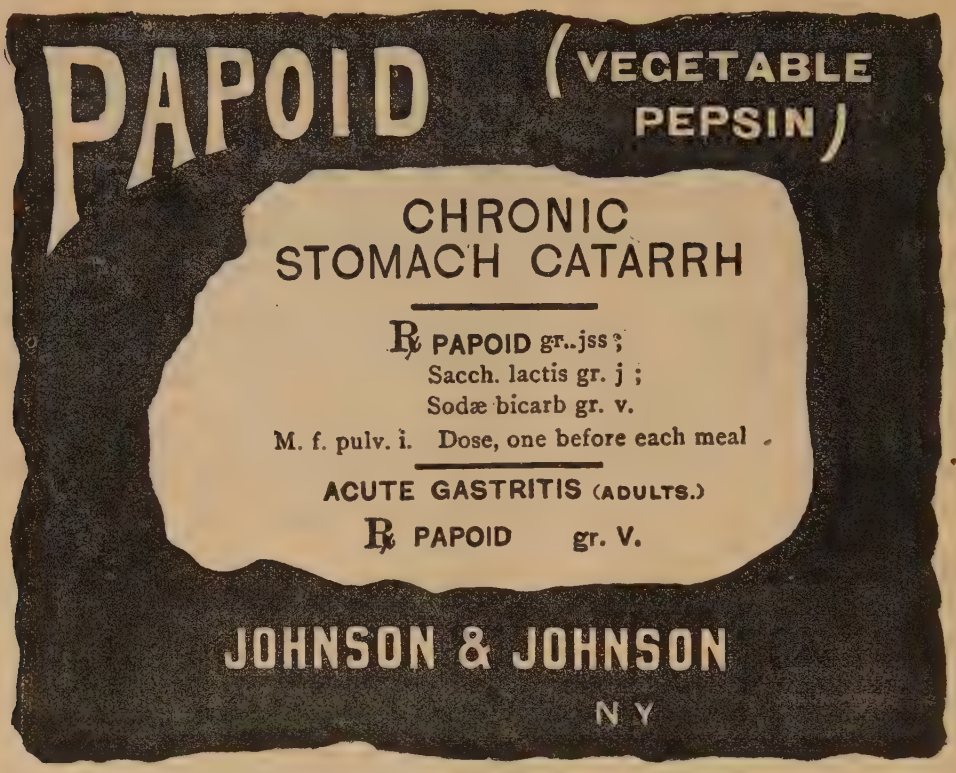
And being purified from all the noxious and deleterious elements, its operation is attended by

No sickness of the stomach, no vomiting, no costiveness, no headache,

Nor any derangement of the constitution or general health.

Hence its high superiority over Laudanum, Paregoric, Black Drop, Denarcotized Laudanum and every other Opiate preparation.

E. FERRETT, Agent, 372 Pearl Street, New York.



Salicylic Acid from Oil of Wintergreen.

It is a well-established fact that the synthetic Salicylic Acid made from Coal Tar, as also all Coal Tar derivatives, have a more or less disturbing effect on the pneumo-gastric nerve. But the synthetic Salicylic Acid is almost invariably used, as it costs only one-tenth of that made from Oil of Wintergreen, which is the natural source of Salicylic Acid.

In order to enhance, if possible, the therapeutic action of Tongaline, to relieve it from any unpleasant effects and to improve the taste, all the Salicylic Acid used in it will be made from Oil of Wintergreen and not from Coal Tar.

We feel assured therefore that the medical profession will appreciate our efforts and will find that there is no better vehicle than Tongaline for the administration of the Salicylates.

FORMULA :—Each fluid drachm represents—Tonga, thirty grains; Extractum Cimicifugin, Racemosae, two grains; Sodium Salicylate, ten grains; Pilocarpin Salicylate, one-hundredth of a grain; Colchicin Salicylate, one five-hundredth of a grain.

MELLIER DRUG COMPANY . . St. Louis.

Medical Publications of F. A. Davis, Philadelphia.

Physician's All-Requisite Time- and Labor-Saving Account-Book.

BEING A LEDGER AND ACCOUNT-BOOK FOR PHYSICIANS' USE, MEETING ALL THE REQUIREMENTS OF THE LAW AND COURTS.

Designed by WILLIAM A. SEIBERT, M.D , of Easton, Pa.

Probably no class of people lose more money through carelessly kept accounts and overlooked or neglected bills than physicians. Often detained at the bedside of the sick until late at night, or deprived of even a modicum of rest, it is with great difficulty that he spares the time or puts himself in condition to give the same care to his own financial interests that a merchant, a lawyer, or even a farmer devotes. It is then plainly apparent that a system of bookkeeping and accounts that, without sacrificing accuracy, but, on the other hand, ensuring it, at the same time relieves the keeping of a physician's book of half their complexity and two-thirds the labor, is a convenience which will be eagerly welcomed by thousands of overworked physicians. Such a system has at last been devised, and we take pleasure in offering it to the profession in the form of The Physician's All-Requisite Time- and Labor- Saving Account-Book.

There is no exaggeration in stating that this Account-Book and Ledger reduces the labor of keeping your accounts more than one-half, and at the same time secures the greatest degree of accuracy. We may mention a few of the superior advantages of The Physician's All-Requisite Time- and Labor- Saving Account-Book, as follows :—

First—Will meet all the requirements of the law and courts.
Second—Self-explanatory; no cipher code.
Third—Its completeness without sacrificing anything.
Fourth—No posting; one entry only.
Fifth—Universal; can be commenced at any time of the year, and can be continued indefinitely until every account is filled.
Sixth—Absolutely no waste of space.
Seventh—One person must needs be sick every day of the year to fill his account, or might be ten years about it and require no more than the space for one account in this ledger.
Eighth—Double the number and many times more than the number of accounts in any similar book; the 300-page book contains space for 900 accounts, and the 600-page book contains space for 1800 accounts.
Ninth—There are no smaller spaces.
Tenth—Compact without sacrificing completeness; every account complete on same page—a decided advantage and recommendation.
Eleventh—Uniform size of leaves.
Twelfth—The statement of the most complicated account is at once before you at any time of month or year—in other words, the account itself as it stands is its simplest statement.
Thirteenth—No transferring of accounts, balances, etc.

To all physicians desiring a quick, accurate, and comprehensive method of keeping their accounts, we can safely say that no book as suitable as this one has ever been devised. A descriptive circular showing the plan of the book will be sent on application.

Medical Publications of F. A. Davis, Philadelphia.

The Medical Bulletin Visiting-List or Physicians' Call Record.

ARRANGED UPON AN ORIGINAL AND CONVENIENT MONTHLY AND WEEKLY PLAN FOR THE DAILY RECORDING OF PROFESSIONAL VISITS.

Frequent Rewriting of Names Unnecessary.

THIS Visiting-List is arranged so that the names of patients need be written but ONCE a month instead of FOUR times a month, as in the old-style lists. By means of a new feature, a simple device consisting of STUB OR HALF LEAVES IN THE FORM OF INSERTS, the first week's visits are recorded in the usual way, and the second week's visits are begun by simply turning over the half-leaf without the necessity of rewriting the patients' names. This very easily understood process is repeated until the month is ended and the record has been kept complete in every detail of VISIT, CHARGE, CREDIT, etc., and the labor and time of entering and transferring names at least THREE times in the month has been saved. There are no intricate rulings; not the least amount of time can be lost in comprehending the plan, for it is acquired at a glance.

THE THREE DIFFERENT STYLES MADE.

The **No. 1 Style** of this List provides space for the DAILY record of seventy different names each month for a year; for physicians who prefer a List that will accommodate a larger practice we have made a **No. 2 Style**, which provides space for the daily record of 105 different names each month for a year, and for physicians who may prefer a Pocket Record-Book of less thickness than either of these styles we have made a **No. 3 Style**, in which "The Blanks for the Recording of Visits in" have been made into removable sections. These sections are very thin, and are made up so as to answer in full the demand of the largest practice, each section providing ample space for the DAILY RECORD OF 210 DIFFERENT NAMES for two months; or 105 different names daily each month for four months; or seventy different names daily each month for six months. Six sets of these sections go with each copy of No. 3 STYLE.

SPECIAL FEATURES NOT FOUND IN ANY OTHER LIST.

In this No. 3 STYLE the PRINTED MATTER, and such matter as the BLANK FORMS FOR ADDRESSES OF PATIENTS, Obstetric Record, Vaccination Record, Cash Account, Birth and Death Records, etc., are fastened permanently in the back of the book, thus reducing its thickness. The addition of one of these removable sections does not increase the thickness more than an eighth of an inch. This brings the book into such a small compass that no one can object to it on account of its thickness, as its bulk is VERY MUCH LESS than that of any visiting-list ever published. Every physician will at once understand that as soon as a section is full it can be taken out, filed away, and another inserted without the least inconvenience or trouble. *Extra or additional sections will be furnished at any time for 15 cents each or $1.75 per dozen.* This Visiting-List contains calendars, valuable miscellaneous data, important tables, and other useful printed matter usually placed in Physicians' Visiting-Lists.

Physicians of many years' standing and with large practices pronounce it THE BEST LIST THEY HAVE EVER SEEN. It is handsomely bound in fine, strong leather, with flap, including a pocket for loose memoranda, etc., and is furnished with a Dixon lead-pencil of excellent quality and finish. It is compact and convenient for carrying in the pocket. Size, 4 x 6⅞ inches.

IN THREE STYLES. NET PRICES.

No. 1. Regular size, to accommodate 70 patients daily each month for one year, ... **$1.25**
No. 2. Large size, to accommodate 105 patients daily each month for one year, ... **$1.50**
No. 3. In which the "Blanks for Recording Visits in" are in removable sections, . . . **$1.75**
Special Edition for Great Britain, without printed matter, ... **4s. 6d.**

N. B.—The Recording of Visits in this List may be Commenced at any time during the Year.

Medical Publications of F. A. Davis, Philadelphia.

MASSEY

Electricity in the Diseases of Women.

WITH SPECIAL REFERENCE TO THE APPLICATION OF STRONG CURRENTS.

By G. BETTON MASSEY, M.D., Physician to the Gynæcological Department of the Howard Hospital; late Electro-therapeutist to the Philadelphia Orthopædic Hospital and Infirmary for Nervous Diseases; Member of the American Neurological Association, of the Philadelphia Neurological Society, of the Franklin Institute, etc. SECOND EDITION. Revised and Enlarged. With New and Original Wood-Engravings. Handsomely bound in Dark-Blue Cloth. 240 pages. 12mo. *No. 5 in the Physicians' and Students' Ready-Reference Series.*

This work is presented to the profession as the most complete treatise yet issued on the electrical treatment of the diseases of women, and is destined to fill the increasing demand for clear and practical instruction in the handling and use of strong currents after the recent methods first advocated by Apostoli. The whole subject is treated from the present stand-point of electric science *with new and original illustrations*, the thorough studies of the author and his wide clinical experience rendering him an authority upon electricity itself and its therapeutic applications. The author has enhanced the practical value of the work by including *the exact details* of treatment and results in a number of cases taken from his private and hospital practice.

Price, post-paid, in the United States and Canada, $1.50, net; in Great Britain, 8s. 6d.; in France, 9 fr. 35.

A new edition of this practical manual attests the utility of its existence and the recognition of its merit. The directions are simple, easy to follow and to put into practice; the ground is well covered, and nothing is assumed, the entire book being the record of experience. —*Journal of Nervous and Mental Diseases.*

It is only a few months since we noticed the first edition of this little book; and it is only necessary to add now that we consider it the best treatise on this subject we have seen, and that the improvements introduced into this edition make it more valuable still.—*Boston Medical and Surgical Journ.*

The style is clear, but condensed. Useless details are omitted, the reports of cases being pruned of all irrelevant material. The book is an exceedingly valuable one, and represents an amount of study and experience which is only appreciated after a careful reading.—*Medical Record.*

MANTON

Childbed; Its Management; Diseases and Their Treatment.

By WALTER P. MANTON, M.D., Visiting Physician to the Detroit Woman's Hospital; Consulting Gynæcologist to the Eastern Michigan Asylum; President of the Detroit Gynæcological Society; Fellow of the American Society of Obstetricians and Gynæcologists, and of the British Gynæcological Society; Member of Michigan State Medical Society, etc. In one neat 12mo volume, *No. in the Physicians' and Students' Ready-Reference Series.* IN PREPARATION.

Medical Bulletin.

A MONTHLY JOURNAL OF MEDICINE AND SURGERY.

Edited by JOHN V. SHOEMAKER, A.M., M.D. Bright, original, and readable. Articles by the best practical writers procurable. Every article as brief as is consistent with the preservation of its scientific value. Therapeutic Notes by the leaders of the medical profession throughout the world. These, and many other unique features, help to keep THE MEDICAL BULLETIN in its present position as the leading low-price Medical Monthly of the world. Subscribe now.

TERMS: $1.00 a year in advance in United States, Canada, and Mexico.
Foreign Subscription Terms: England, 5s.; France, 6 fr.; Germany, 6 marks; Japan, 1 yen; Australia, 5s.; Holland, 3 florins.

Medical Publications of the F. A. Davis Co., Philadelphia.

JUST PUBLISHED. A WORK OF UNUSUAL INTEREST.

The Chinese: Their Present and Future; Medical, Political, and Social.

By ROBERT COLTMAN, JR., M.D., Surgeon in Charge of the Presbyterian Hospital and Dispensary at Teng Chow Fu; Consulting Physician of the American Southern Baptist Mission Society; Examiner in Surgery and Diseases of the Eye for the Shantung Medical Class; Consulting Physician to the English Baptist Missions, etc.

The author has spent many years among the Chinese; LIVED with them in their dwellings; THOROUGHLY learned the language; has become conversant with all their strange and odd characteristics to a greater extent than almost any other American. He has been a physician to all classes of this wonderful people, and the opportunities thus afforded for a clear insight into the inner life of the Chinese, their virtues and vices, political, social, and sanitary condition, probable destiny, and their important position in the world to day, have been ably and wisely used by Dr. Coltman. The simple, direct, straightforward style in which Dr. Coltman has written this book makes it entertaining and fascinating as well as profitable reading throughout.

Illustrated with Fifteen Fine Engravings from photographs of persons, places, and objects characteristic of China. In one handsome Royal Octavo volume of about 250 pages. Appropriately bound in Extra Cloth.

Price, post-paid, in United States and Canada, $1.75, net; Great Britain, 10s.; France, 12 fr. 20.

Syphilis: To-day and Among the Ancients.

By DR. F. BURET, Paris, France. Translated from the French, with notes, by A. H. OHMANN-DUMESNIL, Professor of Dermatology and Syphilology in the St. Louis College of Physicians and Surgeons; Consulting Dermatologist to the St. Louis City Hospital; Physician for Cutaneous Diseases to the Alexian Brothers' Hospital; Dermatologist to St. Margaret's Hospital, etc., etc.

This volume gives the most complete history of Syphilis from prehistoric times up to the Christian era.

To be completed in three 12mo volumes. **Volume I. Syphilis in Ancient and Prehistoric Times. Just Published.** *No. 12 in the Physicians' and Students' Ready-Reference Series.* About 250 pages. Handsomely bound in Dark-Blue Cloth.

Price, post-paid, in United States and Canada, $1.25, net; Great Britain, 6s. 6d.; France, 7 fr. 75.

JUST READY.

Consumption: How to Prevent it and How to Live with it.

ITS NATURE, ITS CAUSES, ITS PREVENTION, AND THE MODE OF LIFE, CLIMATE, EXERCISE, FOOD, CLOTHING NECESSARY FOR ITS CURE.

By N. S. DAVIS, JR., A M., M.D., Professor of Principles and Practice of Medicine, Chicago Medical College; Physician to Mercy Hospital; Member of the American Medical Association, Illinois State Medical Society, Chicago Medical Society, Chicago Academy of Sciences, Illinois State Microscopical Society; Author of a hand-book on "Diseases of the Lungs, Heart, and Kidneys."

In one neat 12mo volume of nearly 150 pages, beautifully printed in large, clear type, and bound in Extra Cloth.

Price, post-paid, in United States and Canada, 75 Cents, net; Great Britain, 4s.

Medical Publications of F. A. Davis, Philadelphia.

CAPP

The Daughter. Her Health, Education, and Wedlock.

HOMELY SUGGESTIONS TO MOTHERS AND DAUGHTERS.

By WILLIAM M. CAPP, M.D., Philadelphia. This is just such a book as a family physician would advise his lady patients to obtain and read. It answers many questions which every busy practitioner of medicine has put to him in the sick-room at a time when it is neither expedient nor wise to impart the information sought.

It is complete in one beautifully printed (large, clear type) 12mo volume of 150 pages. Attractively bound in Extra Cloth.

Price, post-paid, in the United States and Canada, $1.00, net; In Great Britain, 5s. 6d.; France, 6 fr. 20.

In the 144 pages allotted to him he has compressed an amount of homely wisdom on the physical, mental, and moral development of the female child from birth to maturity which is to be found elsewhere in only the great book of experience. It is, of course, a book for mothers, but is one so void of offense in expression or ideas that it can safely be recommended for all whose minds are sufficiently developed to appreciate its teachings.—*Philadelphia Public Ledger.*

Many delicate subjects are treated with skill and in a manner which cannot strike any one as improper or bold. The absolute ignorance in which most young girls are allowed to exist, even until adult life, is often productive of much misery, both mental and physical. Quite a number of books written by physicians for popular use have been prepared in such a way that the professional man can read between the lines strong bids for popular favor, etc. These objectionable features will not be found in Dr. Capp's *brochure*, and for this reason it is worthy the confidence of physicians.—*Medical News.*

CATHELL

Book on the Physician Himself

AND THINGS THAT CONCERN HIS REPUTATION AND SUCCESS.

By D. W. CATHELL, M.D., Baltimore, Md. Being the NINTH EDITION (enlarged and thoroughly revised) of the "Physician Himself, and what he should add to his Scientific Acquirements in order to Secure Success." In one handsome Octavo Volume of 298 pages, bound in Extra Cloth.

Thousands of physicians have won success in their chosen profession through the aid of this invaluable work.

This remarkable book has passed through eight (8) editions in less than five years. It has just undergone a thorough revison by the author, who has added much new matter covering many points and elucidating many excellent ideas not included in former editions.

Price, post-paid, in the United States and Canada, $2.00, net; in Great Britain, 11s. 6d.; France, 12 fr. 40.

I am most favorably impressed with the wisdom and force of the points made in "The Physician Himself," and believe the work in the hands of a young graduate will greatly enhance his chances for professional success.—*From Prof. D. Hayes Agnew, Phila., Pa.*

We strongly advise every actual and intending practitioner of medicine or surgery to have "The Physician Himself," and the more it influences his future conduct the better he will be.—*From the Canada Medical and Surgical Journal, Montreal.*

In the present edition the entire work has been revised and some new matter introduced. The publisher's part is well done; paper is good and the print large; altogether it is a very readable and enjoyable book.—*Montreal Medical Journal*

We have read it carefully and regret much that we had not done so earlier and followed its precepts. The book is full of good advice. Get it at once.—*Pacific Record of Medicine and Surgery.*

We cannot imagine a more profitable investment for the junior practitioner than the purchase and careful study of "The Physician Himself."—*Occidental Medical Times.*

To the physician who has discovered that there is something else besides dry book-learning needed to make him a desirable visitor at the bedside, we commend this volume, that he may assimilate some of the ready crystallized worldly wisdom which otherwise he may be many years acquiring by natural processes.—*North Carolina Medical Journal.*

Medical Publications of F. A. Davis, Philadelphia.

BOENNING

A Text-Book on Practical Anatomy.

INCLUDING A SECTION ON SURGICAL ANATOMY.

By HENRY C. BOENNING, M.D., Lecturer on Anatomy and Surgery in the Philadelphia School of Anatomy; Demonstrator of Anatomy in the Medico-Chirurgical College; Demonstrator of Anatomy in the Philadelphia Dental College; Lecturer on Diseases of the Rectum in the Medico-Chirurgical College, etc., etc.

Fully illustrated throughout with about 200 Wood-Engravings. In one handsome Octavo volume, printed in extra-large, clear type, making it specially desirable for use in the dissecting room. Nearly 500 pages. Substantially bound in Extra Cloth. Also in Oil-Cloth, for use in the dissecting-room without soiling.

Price, post-paid, in the United States, $2.50, net; Canada (duty paid), $2.75, net; Great Britain, 14s.; France, 16 fr. 20.

BOWEN

Hand-Book of Materia Medica, Pharmacy, and Therapeutics.

By CUTHBERT BOWEN, M.D., B.A., Editor of "Notes on Practice."

The second volume in the *Physicians' and Students' Ready Reference Series.* One 12mo volume of 370 pages. Handsomely bound in Dark-Blue Cloth.

Price, post-paid, in the United States and Canada, $1.40, net; in Great Britain, 8s. 6d.; in France, 9 fr. 25.

EXTRACT FROM THE PREFACE.—"While this is essentially a STUDENT'S MANUAL, a large amount of matter has been incorporated which, it is hoped, will render it a useful reference-book to the YOUNG GRADUATE who is just entering on his professional career, and more particularly the individual whose sphere of work demands a more practical acquaintance with pharmaceutical processes than is required of the ordinary city practitioner. Great care has been taken throughout the book to familiarize the student with the best methods of administering the various drugs he will be called upon to use, and with this object a large number of standard prescriptions have been selected from the works of the most eminent authorities, which he can either adopt, with modifications to suit particular cases, or use as models on which to construct his own formulæ."

This excellent manual comprises in its 366 pages about as much sound and valuable information on the subjects indicated in its title as could well be crowded into the compass. The book is exhaustively and correctly indexed, and of a convenient form. The paper, press-work, and binding are excellent, and the typography (long primer and brevier) is highly to be commended, as opposed to the nonpareil and agate usually used in compends of this sort, and which are destructive to vision and temper alike.—*St. Louis Med. and Surg. Jour.*

In going through it, we have been favorably impressed by the plain and practical suggestions in regard to prescription writing, and the metric system, and the other things which must be known in order to write good and accurate prescriptions.—*Medical and Surgical Reporter*

BURET

Syphilis: To-day and in Antiquity.

By DR. F. BURET (Paris). Translated from the French, with the author's permission, by A. H. OHMANN-DUMESNIL, A.M., M.D., Professor of Dermatology and Syphilology in the St. Louis College of Physicians and Surgeons.

To be completed in three 12mo volumes. Volume I, Syphilis in Antiquity. IN PRESS. READY IN OCTOBER, 1891.

Medical Publications of F. A. Davis, Philadelphia.

EISENBERG

Bacteriological Diagnosis.

TABULAR AIDS FOR USE IN PRACTICAL WORK.

By JAMES EISENBERG, Ph.D., M.D., Vienna. Translated and augmented, with the permission of the author, from the latest German Edition, by NORVAL H. PIERCE, M.D., Surgeon to the Out-Door Department of Michael Reese Hospital; Assistant to Surgical Clinic, College of Physicians and Surgeons, Chicago, Ill.

This book is a novelty in Bacteriological Science. It is arranged in a tabular form in which are given the specific characteristics of the various well-established bacteria, so that the worker may, at a glance, inform himself as to the identity of a given organism. They then serve the same function to the Bacteriologist as does the "Chemical Analysis Chart" to the chemist, and the one will be found as essential as the other.

THE GREATEST care has been taken to bring the work up to the present aspect of Bacteriology.

In one Octavo volume, handsomely bound in Cloth. READY SOON.

Price, post-paid, in the United States and Canada, $1.50, net; in Great Britain, 8s. 6d.; in France, 9 fr. 35.

EDINGER

Twelve Lectures on the Structure of the Central Nervous System.

FOR PHYSICIANS AND STUDENTS.

By DR. LUDWIG EDINGER, Frankfort-on-the-Main. Second Revised Edition. With 133 Illustrations. Translated by WILLIS HALL VITTUM, M.D., St. Paul, Minn. Edited by C. EUGENE RIGGS, A.M., M.D., Professor of Mental and Nervous Diseases, University of Minnesota; Member of the American Neurological Association.

The illustrations are exactly the same as those used in the latest German edition (with the German names translated into English), and are very satisfactory to the Physician and Student using the book.

The work is complete in one Royal Octavo volume of about 250 pages, bound in Extra Cloth.

Price in United States and Canada, post-paid, $1.75, net; Great Britain, 10s.; France, 12 fr. 20.

One of the most instructive and valuable works on the minute anatomy of the human brain extant. It is written in the form of lectures, profusely illustrated, and in clear language. The book is worthy of the highest enconiums, and will, undoubtedly, command a large sale.—*The Pacific Record of Medicine and Surgery.*

Since the first works on anatomy, up to the present day, no work has appeared on the subject of the general and minute anatomy of the central nervous system so complete and exhaustive as this work of Dr. Ludwig Edinger. Being himself an original worker, and having the benefits of such masters as Stilling, Weigeit, Geilach, Meynert, and others, he has succeeded in transforming the mazy wilderness of nerve fibres and cells into a district of well-marked pathways and centres, and by so doing has made a pleasure out of an anatomical bugbear.—*The Southern Medical Record.*

Every point is clearly dwelt upon in the text, and where description alone might leave a subject obscure clever drawings and diagrams are introduced to render misconception of the author's meaning impossible. The book is eminently practical. It unravels the intricate entanglement of different tracts and paths in a way that no other book has done so explicitly or so concisely. — *Northwestern Lancet.*

Medical Publications of F. A. Davis, Philadelphia.

REMONDINO

Circumcision: Its History, Modes of Operation, Etc.

FROM THE EARLIEST TIMES TO THE PRESENT; WITH A HISTORY OF EUNUCHISM, HERMAPHRODISM, ETC., AS OBSERVED AMONG ALL RACES AND NATIONS; ALSO A DESCRIPTION OF THE DIFFERENT OPERATIVE METHODS OF MODERN SURGERY PRACTICED UPON THE PREPUCE.

By P. C. REMONDINO, M.D. (Jefferson); Member of the American Medical Association; Member of the American Public Health Association; Vice-President of the State Medical Society of California, and of the Southern California Medical Society, etc., etc.

No. 11 in the Physicians' and Students' Ready-Reference Series. About 350 pages. 12mo. Handsomely bound in Dark-Blue Cloth. JUST READY.

Price, post-paid, in the United States and Canada, $1.25, net; in Great Britain, 8s. 6d.; in France, 7 fr. 75. Cheap Edition (paper binding), United States and Canada, 50 cents, net, post-paid; Great Britain, 4s. 3d.; France, 4 fr. 20.

ROHÉ

Text-Book of Hygiene.

A COMPREHENSIVE TREATISE ON THE PRINCIPLES AND PRACTICE OF PREVENTIVE MEDICINE FROM AN AMERICAN STAND-POINT.

By GEORGE H. ROHÉ, M.D., Professor of Obstetrics and Hygiene in the College of Physicians and Surgeons, Baltimore; Member of the American Public Health Association, etc.

Every Sanitarian should have Rohé's "Text-Book of Hygiene" as a work of reference. Of this New (second) edition, one of the best qualified judges, namely, Albert L. Gihon, M.D., Medical Director, U. S. Navy, in charge of U. S. Naval Hospital, Brooklyn, N. Y., and ex-President of the American Public Health Association, writes: "It is the most admirable, concise *résumé* of the facts of Hygiene with which I am acquainted. Prof. Rohé's attractive style makes the book so readable that no better presentation of the important place of Preventive Medicine, among their studies, can be desired for the younger members, especially, of our profession.

Second Edition, thoroughly revised and largely rewritten, with many illustrations and valuable tables. In one handsome Royal Octavo volume of over 400 pages, bound in Extra Cloth.

Price, post-paid, in United States, $2.50, net; Canada (duty paid), $2.75, net; Great Britain, 14s.; France, 16 fr. 20.

In short, the work contains brief and practical articles on hygienic regulation of life, under almost all conditions. One prominent feature is that there are no superfluous words; every sentence is direct to the point sought. It is, therefore, easy reading, and conveys very much information in little space.—*The Pacific Record of Medicine and Surgery.*

Truly a most excellent and valuable work, comprising the accepted facts in regard to preventive medicine, clearly stated and well arranged. It is unquestionably a work that should be in the hands of every physician in the country, and medical students will find it a most excellent and valuable text-book.—*The Southern Practitioner.*

The first edition was rapidly exhausted, and the book justly became an authority to physicians and sanitary officers, and a text-book very generally adopted in the colleges throughout America. The second edition is a great improvement over the first, all of the matter being thoroughly revised, much of it being rewritten, and many additions being made. The size of the book is increased one hundred pages. The book has the original recommendation of being a handsomely-bound, clearly-printed octavo volume, profusely illustrated with reliable references for every branch of the subject matter.—*Medical Record.*

The wonder is how Prof. Rohé has made the book so readable and entertaining with so much matter necessarily condensed. The book is well printed with good, clear type, is attractive in appearance, and contains a number of valuable tables and illustrations that must be of decided aid to the student, if not to the general practitioner and health officer. Altogether, the manual is a good exponent of hygiene and sanitary science from the present American stand-point, and will repay with pleasure and profit any time that may be given to its perusal.—*University Medical Magazine.*

Medical Publications of F. A. Davis, Philadelphia.

SHOEMAKER

Materia Medica and Therapeutics.

WITH ESPECIAL REFERENCE TO THE CLINICAL APPLICATION OF DRUGS. BEING THE SECOND AND LAST VOLUME OF A TREATISE ON MATERIA MEDICA, PHARMACOLOGY, AND THERAPEUTICS, AND AN INDEPENDENT VOLUME UPON DRUGS.

By JOHN V. SHOEMAKER, A.M., M.D., Professor of Materia Medica, Pharmacology, Therapeutics, and Clinical Medicine, and Clinical Professor of Diseases of the Skin in the Medico-Chirurgical College of Philadelphia; Physician to the Medico-Chirurgical Hospital, etc., etc.

This, the second volume of Shoemaker's "Materia Medica, Pharmacology, and Therapeutics," is wholly taken up with the consideration of drugs, each remedy being studied from three points of view, viz.: the Preparations, or Materia Medica; the Physiology and Toxicology, or Pharmacology; and, lastly, its Therapy. It is thoroughly abreast of the progress of Therapeutic Science, and is really an indispensable book to every student and practitioner of medicine.

Royal Octavo, about 675 pages. Thoroughly and carefully indexed.

Price, in United States, post-paid, Cloth, $3.50; Sheep, $4.50, net. Canada (duty paid), Cloth, $4.00; Sheep, $5.00, net. Great Britain, Cloth, 20s.; Sheep, 26s. France, Cloth, 22 fr. 40; Sheep, 28 fr. 60.

The first volume of this work is devoted to Pharmacy, General Pharmacology, and Therapeutics, and remedial agents not properly classed with drugs. Royal Octavo, 353 pages.

Price of Volume I, post-paid, in United States, Cloth, $2.50, net; Sheep, $3.25, net. Canada, duty paid, Cloth, $2.75, net; Sheep, $3.60, net. Great Britain, Cloth, 14s.; Sheep, 18s. France, Cloth, 16 fr. 20; Sheep, 20 fr. 20. The volumes are sold separately.

SHOEMAKER'S TREATISE ON MATERIA MEDICA, PHARMACOLOGY, AND THERAPEUTICS STANDS ALONE.

(1) Among Materia Medica text-books, in that it includes every officinal drug and every preparation contained in the United States Pharmacopœia.

(2) In that it is the only work on therapeutics giving the strength, composition, and dosage of every officinal preparation.

(3) In giving the latest investigations with regard to the physiological action of drugs and the most recent applications in therapeutics.

(4) In combining with officinal drugs the most reliable reports of the actions and uses of all the noteworthy new remedies, such as acetanilid, antipyrin, bromoform, exalgin, pyoktanin, pyridin, somnal, spermine (Brown-Séquard), tuberculin (Koch's lymph), sulphonal, thiol, urethan, etc., etc.

(5) As a complete encyclopædia of modern therapeutics in condensed form, arranged alphabetically for convenience of reference for either physician, dentist, or pharmacist, when immediate information is wanted concerning the action, composition, dose, or antidotes for any officinal preparation or new remedy.

(6) In giving the physical characters and chemical formulæ of the new remedies, especially the recently-introduced antipyretics and analgesics.

(7) In the fact that it gives special attention to the consideration of the diagnosis and treatment of poisoning by the more active drugs, both officinal and non-officinal.

(8) And unrivaled in the number and variety of the prescriptions and practical formulæ, representing the latest achievements of clinical medicine.

(9) In that, while summarizing foreign therapeutical literature, it fully recognizes the work done in this department by American physicians. It is an epitome of the present state of American medical practice, which is universally acknowledged to be the best practice.

(10) Because it is the most complete, convenient, and compendious work of reference, being, in fact, a companion to the United States Pharmacopœia, a drug-encyclopædia, and a therapeutic hand-book all in one volume.

The value of the book lies in the fact that it contains all that is authentic and trustworthy about the host of new remedies which have deluged us in the last five years. The pages are remarkably free from useless information. The author has done well in following the alphabetical order.—*N. Y. Med. Record.*

In perusing the pages devoted to the special consideration of drugs, their pharmacology, physiological action, toxic action, and therapy, one is constantly surprised at the amount of material compressed in so limited a space. The book will prove a valuable addition to the physician's library.—*Occiuental Med. Times.*

It is a meritorious work, with many unique features. It is richly illustrated by well-tried prescriptions showing the practical application of the various drugs discussed. In short, this work makes a pretty complete encyclopædia of the science of therapeutics, conveniently arranged for handy reference.—*Med. World.*

Medical Publications of F. A. Davis, Philadelphia.

WITHERSTINE

The International Pocket Medical Formulary

ARRANGED THERAPEUTICALLY.

By C. SUMNER WITHERSTINE, M.S., M.D., Associate Editor of the "Annual of the Universal Medical Sciences;" Visiting Physician of the Home for the Aged, Germantown, Philadelphia; Late House-Surgeon Charity Hospital, New York.

More than 1800 formulæ from several hundred well-known authorities. With an Appendix containing a Posological Table, the newer remedies included; Important Incompatibles; Tables on Dentition and the Pulse; Table of Drops in a Fluidrachm and Doses of Laudanum graduated for age; Formulæ and Doses of Hypodermatic Medication, including the newer remedies; Uses of the Hypodermatic Syringe; Formulæ and Doses for Inhalations, Nasal Douches, Gargles, and Eye-washes; Formulæ for Suppositories; Use of the Thermometer in Disease; Poisons, Antidotes, and Treatment; Directions for Post-Mortem and Medico-Legal Examinations; Treatment of Asphyxia, Sun-stroke, etc.; Antiemetic Remedies and Disinfectants; Obstetrical Table; Directions for Ligations of Arteries; Urinary Analysis; Table of Eruptive Fevers; Motor Points for Electrical Treatment, etc.

This work, the best and most complete of its kind, contains about 275 printed pages, besides extra blank leaves—the book being interleaved throughout—elegantly printed, with red lines, edges, and borders; with illustrations. Bound in leather, with side flap.

It is a handy book of reference, replete with the choicest formulæ (over 1800 in number) of more than six hundred of the most prominent classical writers and modern practitioners.

The remedies given are not only those whose efficiency has stood the test of time, but also the newest and latest discoveries in pharmacy and medical science, as prescribed and used by the best-known American and foreign modern authorities.

It contains the latest, largest (66 formulæ), and most complete collection of hypodermatic formulæ (including the latest new remedies) ever published, with doses and directions for their use in over fifty different diseases and diseased conditions.

Its appendix is brimful of information, invaluable in office work, emergency cases, and the daily routine of practice.

It is a reliable friend to consult when, in a perplexing or obstinate case, the usual line of treatment is of no avail. (A hint or a help from the best authorities, as to choice of remedies, correct dosage, and the eligible, elegant, and most palatable mode of exhibition of the same.)

It is compact, elegantly printed and bound, well illustrated, and of convenient size and shape for the pocket.

The alphabetical arrangement of the diseases and a thumb-letter index render reference rapid and easy.

Blank leaves, judiciously distributed throughout the book, afford a place to record and index favorite formulæ.

As a *student*, the physician needs it for study, collateral reading, and for recording the favorite prescriptions of his professors, in lecture and clinic; as a *recent graduate*, he needs it as a reference hand-book for daily use in prescribing (gargles, nasal douches, inhalations, eye-washes, suppositories, incompatibles, poisons, etc.); as an *old practitioner*, he needs it to refresh his memory on old remedies and combinations, and for information concerning newer remedies and more modern approved plans of treatment.

No live, progressive medical man can afford to be without it.

Price, post-paid, in United States and Canada $2.00, net;
Great Britain, 11s. 6d.; France, 12 fr. 40.

It is sometimes important that such prescriptions as have been well established in their usefulness be preserved for reference, and this little volume serves such a purpose better than any other we have seen.—*Columbus Medical Journal.*

To the young physician just starting out in practice this little book will prove an acceptable companion.—*Omaha Clinic.*

As long as "combinations" are sought, such a book will be of value, especially to those who cannot spare the time required to learn enough of incompatibilities before commencing practice to avoid writing incompatible and dangerous prescriptions. The constant use of such a book by such prescribers would save the pharmacist much anxiety.—*The Druggists' Circular.*

In judicious selection, in accurate nomenclature, in arrangement, and in style, it leaves nothing to be desired. The editor and the publisher are to be congratulated on the production of the very best book of its class.—*Pittsburgh Medical Review.*

Medical Publications of F. A. Davis, Philadelphia.

KEATING and EDWARDS

Diseases of the Heart and Circulation.

IN INFANCY AND ADOLESCENCE. WITH AN APPENDIX ENTITLED "CLINICAL STUDIES ON THE PULSE IN CHILDHOOD."

By JOHN M. KEATING, M.D., Obstetrician to the Philadelphia Hospital, and Lecturer on Diseases of Women and Children; Surgeon to the Maternity Hospital; Physician to St. Joseph's Hospital; Fellow of the College of Physicians of Philadelphia, etc.; and WILLIAM A. EDWARDS, M.D., Instructor in Clinical Medicine and Physician to the Medical Dispensary in the University of Pennsylvania; Physician to St. Joseph's Hospital; Fellow of the College of Physicians; formerly Assistant Pathologist to the Philadelphia Hospital, etc.

Illustrated by Photographs and Wood-Engravings. About 225 pages. Octavo. Bound in Cloth.

Price, post-paid, in the United States and Canada, $1.50, net; in Great Britain, 8s. 6d.; in France, 9 fr. 35.

Drs. Keating and Edwards have produced a work that will give material aid to every doctor in his practice among children. The style of the book is graphic and pleasing, the diagnostic points are explicit and exact, and the therapeutical resources include the novelties of medicine as well as the old and tried agents.—*Pittsburgh Med. Review.*

It is not a mere compilation, but a systematic treatise, and bears evidence of considerable labor and observation on the part of the authors. Two fine photographs of dissections exhibit mitral stenosis and mitral regurgitation; there are also a number of wood-cuts.—*Cleveland Medical Gazette.*

LIEBIG and ROHÉ

Practical Electricity in Medicine and Surgery.

By G. A. LIEBIG, JR., PH D., Assistant in Electricity, Johns Hopkins University; Lecturer on Medical Electricity, College of Physicians and Surgeons, Baltimore; Member of the American Institute of Electrical Engineers, etc.; and GEORGE H. ROHE, M.D., Professor of Obstetrics and Hygiene, College of Physicians and Surgeons, Baltimore; Visiting Physician to Bay View and City Hospitals; Director of the Maryland Maternité; Associate Editor "Annual of the Universal Medical Sciences," etc.

Profusely Illustrated by Wood-Engravings and Original Diagrams, and published in one handsome Royal Octavo volume of 383 pages, bound in Extra Cloth.

The constantly increasing demand for this work attests its thorough reliability and its popularity with the profession, and points to the fact that it is already THE standard work on this very important subject. The part on Physical Electricity, written by Dr. Liebig, one of the recognized authorities on the science in the United States, treats fully such topics of interest as Storage Batteries, Dynamos, the Electric Light, and the Principles and Practice of Electrical Measurement in their Relations to Medical Practice. Professor Rohé, who writes on Electro-Therapeutics, discusses at length the recent developments of Electricity in the treatment of stricture, enlarged prostate, uterine fibroids, pelvic cellulitis, and other diseases of the male and female genito-urinary organs. The applications of Electricity in dermatology, as well as in the diseases of the nervous system, are also fully considered.

Price, post-paid, in the United States and Canada, $2.00, net; in Great Britain, 11s. 6d.; France, 12 fr. 40.

Any physician, especially if he be a beginner in electro-therapeutics, will be well repaid by a careful study of this work by Liebig and Rohé. For a work on a special subject the price is low, and no one can give a good excuse for remaining in ignorance of so important a subject as electricity in medicine.—*Toledo Medical and Surgical Reporter.*

The entire work is thoroughly scientific and practical, and is really what the authors have aimed to produce, "a trustworthy guide to the application of electricity in the practice of medicine and Surgery."—*New York Medical Times.*

In its perusal, with each succeeding page, we have been more and more impressed with the fact that here, at last, we have a treatise on electricity in medicine and surgery which amply fulfills its purpose, and which is sure of general adoption by reason of its thorough excellence and superiority to other works intended to cover the same field.—*Pharmaceutical Era.*

After carefully looking over this work, we incline to the belief that the intelligent physician who is familiar with the general subject will be greatly interested and profited.—*American Lancet.*

CONDENSED PRICE-LIST

—OF—

F. A. DAVIS' MEDICAL PUBLICATIONS,

1231 FILBERT STREET, PHILADELPHIA, PA.

BRANCH OFFICES:

117 W. Forty-second Street, New York City. 25 Old Capitol, Atlanta, Ga.
24 Lakeside Building (214-220 S. Clark St., Cor. Adams), Chicago, Ill.
40 Berners St., Oxford St., London, W., England.

BASHORE—Improved Clinical Chart. For the Separate Plotting of Temperature, Pulse, etc. Fifty Charts in tablet form. Size, 8 x 12 inches. Net, 50 cents.

BOWEN—Hand-Book of Materia Medica, Pharmacy, and Therapeutics. 12mo. Cloth. Net, $1.40.

CATHELL—Book on the Physician Himself, and Things that Concern his Reputation and Success. NINTH EDITION. 8vo. Cloth. Net, $2.00.

CLEVENGER—Spinal Concussion. Illustrated. 8vo. Cloth. Net, $2.50.

CLEVENGER—Lectures on Artistic Anatomy and the Sciences Useful to the Artist. Illustrated. IN PRESS.

SENN

Principles of Surgery.

By N. SENN, M.D., PH.D., Professor of Practice of Surgery and Clinical Surgery in Rush Medical College, Chicago, Ill.; Professor of Surgery in the Chicago Polyclinic; Attending Surgeon to the Milwaukee Hospital; Consulting Surgeon to the Milwaukee County Hospital and to the Milwaukee County Insane Asylum.

This work, by one of America's greatest surgeons, is thoroughly COMPLETE; its clearness and brevity of statement are among its conspicuous merits. The author's long, able, and conscientious researches in every direction in this important field are a guarantee, of unusual trustworthiness, that every branch of the subject is treated authoritatively and in such a manner as to bring the greatest gain in knowledge to the Practitioner and Student.

In one handsome Royal Octavo volume, with 109 fine Wood-Engravings and 624 pages.

OPINIONS AND CRITICISMS.

STEPHEN SMITH, M.D., Professor of Clinical Surgery Medical Department University of the City of New York, writes:—"I have examined the work with great satisfaction, and regard it as a most valuable addition to American Surgical literature. There has long been great need of a work on the principles of surgery which would fully illustrate the present advanced state of knowledge of the various subjects embraced in this volume. The work seems to me to meet this want admirably."

LEWIS A. SAYRE, M.D., Professor Orthopædic Surgery Bellevue Hospital Medical College, New York, writes:—"My Dear Doctor Senn: Your very valuable work on surgery, sent to me some time since, I have studied with great satisfaction and improvement. I congratulate you most heartily on having produced the most classical and practical work on surgery yet published."

FRANK J. LUTZ, M.D., St. Louis, Mo., says:—"It seems incredible that those who pretend to teach have done without such a guide before, and I do not understand how our students succeeded in mastering the principles of modern surgery by attempting to read our obsolete text-books. American surgery should feel proud of the production, and the present generation of surgeons owe you a debt of gratitude."

W. W. DAWSON, M.D., Cincinnati, Ohio, writes:—"It is a work of great merit, and one greatly needed. Reliable Surgery must be founded upon correct principles."

WM. OSLER, M.D., The Johns Hopkins Hospital, Baltimore, says:—"You certainly have covered the ground thoroughly and well, and with a thoroughness I do not know of in any similar work. I should think it would prove a great boon to the students and also to very many teachers."

J. C. WARREN, M.D., Boston, Mass., writes:—"The book comes at an opportune moment; the old text-books on Surgical Pathology are out of date, and you are filling practically a new field."

The work is systematic and compact, without a fact omitted or a sentence too much, and it not only makes instructive but fascinating reading. A conspicuous merit of Senn's work is his method, his persistent and tireless search through original investigations for additions to knowledge, and the practical character of his discoveries. This combination of the discoverer and the practical man gives a special value to all his work, and is one of the secrets of his fame. No physician in any line of practice can afford to be without Senn's "Principles of Surgery."—*The Review of Insanity and Nervous Diseases.*

Every chapter is a mine of information containing all the recent advances on the subjects presented in such a systematic, instructive and entertaining style that the reader will not willingly lay it aside, but will read and re-read with pleasure and profit.—*Kansas Medical Journal.*

It is a most admirable work in all respects, and should be in the hands of every senior student, general practitioner, and special surgeon.—*Canadian Practitioner.*

After perusing this work on several different occasions we have come to the conclusion that it is a remarkable work by a man of unusual ability. We have never seen anything like it before. The author seems to have had a very large personal experience, which is freely made use of in the text, besides which he is familiar with almost all that has been written in English and German on the above topics. We congratulate Dr. Senn upon the manner in which he has accomplished his task.—*The Canada Medical Record.*

The work is exceedingly practical, as the chapters on the treatment of the various conditions considered are based on sound deductions, are complete, and easily carried out by any painstaking surgeon. Asepsis and antisepsis are exhaustively treated. All in all, the book is a most excellent one, and deserves a place in every well-selected library.—*Medical Record.*

It will prove exceedingly valuable in the diffusion of more thorough knowledge of the subject-matter among English-speaking surgeons. As in the case of all his work, he has done this in a truly admirable manner. Nowhere is there room to criticise the accuracy of Senn's statements, and everywhere is there evidence of a thorough study of the best work of the most eminent men. The book throughout is worthy of the highest praise. It should be adopted as a text-book in all of our schools.—*University Medical Magazine.*

The principles of surgery, as expounded by Dr. Senn, are such as to place the student in the independent position of evolving from them methods of treatment; the master of the principles readily becomes equally a master of practice. And this, of course, is really the whole purpose of the volume.—*Weekly Medical Review.*

SYR. HYPOPHOS. CO., FELLOWS

Contains the Essential Elements of the Animal Organization—Potash and Lime;

The Oxidising Agents—Iron and Manganese;

The Tonics—Quinine and Strychnine;

And the Vitalizing Constituent—Phosphorus; the whole combined in the form of a Syrup with a **Slightly Alkaline Reaction.**

It Differs in its Effects from all Analogous Preparations; and it possesses the important properties of being pleasant to the taste, easily borne by the stomach, and harmless under prolonged use.

It has Gained a Wide Reputation, particularly in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs. It has also been employed with much success in various nervous and debilitating diseases.

Its Curative Power is largely attributable to its stimulant, tonic, and nutritive properties, by means of which the energy of the system is recruited.

Its Action is Prompt; it stimulates the appetite and the digestion, it promotes assimilation, and it enters directly into the circulation with the food products.

The prescribed dose produces a feeling of buoyancy, and removes depression and melancholy; *hence the preparation is of great value in the treatment of mental and nervous affections.* From the fact, also, that it exerts a double tonic influence, and induces a healthy flow of the secretions, its use is indicated in a wide range of diseases.

NOTICE—CAUTION.

The success of Fellows' Syrup of Hypophosphites has tempted certain persons to offer imitations of it for sale. Mr. Fellows, who has examined samples of several of these, ***finds that no two of them are identical,*** and that all of them differ from the original in composition, in freedom from acid reaction, in susceptibility to the effects of oxygen when exposed to light or heat, ***in the property of retaining the strychnine in solution,*** and in the medicinal effects.

As these cheap and inefficient substitutes are frequently dispensed instead of the genuine preparation, physicians are earnestly requested, when prescribing the Syrup, to write "Syr. Hypophos. ***Fellows.***"

As a further precaution, it is advisable that the Syrup should be ordered in the original bottles; the distinguishing marks which the bottles (and the wrappers surrounding them) bear, can then be examined, and the genuineness—or otherwise—of the contents thereby proved.

Medical Letters may be addressed to

Mr. FELLOWS, 48 Vesey Street, New York.

TONICS, ANTIPERIODICS, EXPECTORANTS.

We desire to mention the Special Advantages of a few Eligible Preparations which meet many indications in Tonic, Antiperiodic and Expectorant Treatment.

ESENCIA DE CALISAYA.

An agreeable, general tonic and stimulant, the equivalent of 40 grains Calisaya Bark in each ounce. As a palatable stimulant, antiperiodic and febrifuge, possessing all the medicinal virtues of Calisaya, it may be relied upon.

EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES.

This is the perfection of an emulsion, pure, fluid, palatable. Each fluid ounce contains: Cod Liver Oil, 4 fluid drachms; Hypophosphite of Lime, 8 grains; Hypophosphite of Soda, 4 grains; Gum Arabic Sugar, Glycerin, Water and Carminatives.

COCILLAÑA, GRINDELIA ROBUSTA, QUEBRACHO, CHEKAN, YERBA SANTA, LIPPIA MEXICANA, ANODYNE PINE EXPECTORANT, BRONCHIAL SEDATIVE, all have had their value proven in relieving respiratory affections.

Among Compressed Troches for Throat and Bronchial Trouble, we may mention Ammonium Muriate, Borax, Potassium Bicarbonate, Potassium Bromide, Potassium Chlorate, Potassium Chlorate and Ammonium Muriate, Potassium Chlorate and Borax, Sodium Bicarbonate, Soda Mint.

Descriptive Literature, and all information regarding our products promptly furnished on request.

PARKE, DAVIS & COMPANY,

DETROIT, NEW YORK AND KANSAS CITY.

DYSPEPSIA.

Deranged digestion is the most common of all human ailments. It is a truism that no organ of the body can preserve its normal integrity *when* its supplying nerve is disordered *by lowered tone,* but this fact is largely ignored in these modern pepsin days—the *cause* being lost sight of whilst trying to remedy the effect. It is well known that any unusual worry or anxiety will upset the digestion of *the neurotic* patient. Hence, in treating dyspepsia, particularly atonic dyspepsia, that form met with in persons of low vitality and poor appetite, there are *two distinct* ***INDICATIONS:*** one is to subserve the needs of general nutrition, the other is to subserve the needs of the nervous system. This can be done by giving the patient good nutritious food and a good nerve tonic. This explains why such remarkable results follow the daily use of ***CELERINA*** in all dyspeptic troubles.

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:

Pure Cod Liver Oil.....	80 m. (drops)	Soda.....	1-3 Grains
Distilled Water.....	35 "	Salicylic Acid.....	1-4 "
Soluble Pancreatin.....	5 Grains.	Hyocholic Acid.....	1-90 "

Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro-pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which HYDROLEINE is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis, General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable, supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

SOLD BY DRUGGISTS GENERALLY.

WARNER & CO.'S LITHIA SALTS IN TREATMENT OF RHEUMATISM.

BROMO LITHIA.

(Warner & Co. Founded 1856.)

Each Dessertspoonful contains: ℞ Salicylate Lithia 10 grs. and Brom. Soda 10 grs.

Bromo Lithia is an extremely potent remedy in the treatment of Rheumatism, Rheumatic Gout and Gouty Diathesis, originated by Wm. R. Warner & Co. It consists of Salicylate Lithium 10 grs., and Bromide Sodium 10 grs., in each dessertspoonful.

GRANULAR EFFERVESCENT

Bromide of Lithia

Each teaspoonful contains five grains of the chemically pure salt.

This preparation has been strongly recommended as a remedy for Epilepsy and as a Hypnotic of great value.

GRANULAR EFFERVESCENT

Salicylate of Lithia

Dose:—A teaspoonful containing ten grains of Salt.

A convenient and pleasant remedy in Gout and Rheumatism.

This preparation is intended for physicians' use and will be found to possess advantages over Salicylic Acid, being less irritating to the stomach, and combining the efficacy of Lithia and Salicylic Acid.

GRANULAR EFFERVESCENT

Salicylate of Sodium

ANTI-RHEUMATIC.

Each heaping teaspoonful contains ten grains of Salicylate of Sodium.

Salicylate of Sodium is now generally preferred to other forms of Salicylic Acid, owing to its greater solubility, etc.

GRANULAR EFFERVESCENT

Citrate Lithia

Each heaping teaspoonful contains four grains of the chemically pure salt. Valuable in Rheumatic, Gouty, and analogous disorders, and acceptable to delicate stomachs where the Carbonate is not well borne.

GRANULAR EFFERVESCENT

Lithiated Potash

Each heaping teaspoonful contains five grains of Carb: Lithia and ten grains of Bi-Carb. Potash.

GRANULAR EFFERVESCENT

Carbonate Lithia

Each heaping teaspoonful contains four grains of the chemically pure salt. A remarkable and often magical resolvent of Gouty Rheumatic deposits.

Dr. A. Garrod, a well-known English authority on Gout, who was the first physician to introduce the Lithia Salts in the treatment of the gouty diathesis, states that their action is materially increased by being administered in a freely diluted form. The effervescing salts of Lithia furnish an easy and elegant way of applying Dr. Garrod's methods.

DOSE.—From ten to thirty drops or more, as often as may be indicated to meet the urgency of the case. Administer in hot water when quick action is desired.

Messrs. B. KEITH & CO ,—Gentlemen: Melroy, Ind.

I am giving the con. tr. avena sativa for the *morphia habit*, and I find it will cure, I believe, *all cases, no matter how long they have been the slave* of this opium monster. I think this is the greatest discovery of our age. F. M. POLLITT, M.D.

Messrs. B. KEITH & CO.,—Gentlemen: Barnesville, Ga.

The con. tinct. avena sativa has been more successful in the treatment of the opium habit than anything I have ever tried, and I have tried various other remedies, amongst them the advertised nostrums. J. C. HOLLOWAY, M.D.

Messrs. B. KEITH & CO.,—Gentlemen: Idaho Springs; Col.

I have tried a small amount of the con. tr. avena sativa and am more than pleased with it in the *opium habit* and several other cases, such as in female diseases and nervous conditions. CHAS. B. RICHMOND, M. D

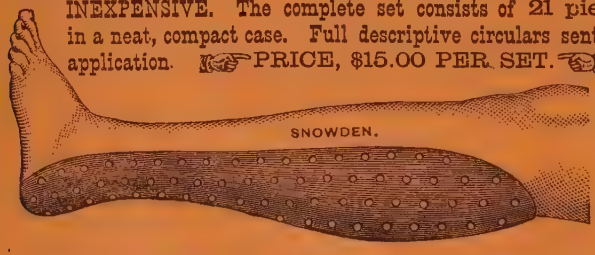
Send for printed matter on Con. Tinc. Avena Sativa in the Morphine or Opium Habit, and certificates from different members of the Medical Profession citing cases under their charge treated by it, also **Revised and Enlarged Manuel** to

B. KEITH & CO., ORGANIC CHEMISTS,

ESTABLISHED 1852. No. 75 WILLIAM ST. NEW YORK.

LEVIS'S METALLIC SPLINTS.

FLEXIBLE, PERFORATED, NICKEL-PLATED, Conformable to every size and condition of Limbs. VERY LIGHT, INDESTRUCTIBLE, and INEXPENSIVE. The complete set consists of 21 pieces in a neat, compact case. Full descriptive circulars sent on application. ☞PRICE, $15.00 PER SET.☜



The Polyclinic Never-Leaking Ether Bottle,

Price, $1.00.

Just One Word

to the Medical Profession as to the value of TERRALINE (or purified Petroleum) in Bronchial Pulmonary Catarrhal and other Diseases of the Throat and Lungs.

In the first place it is not an emulsion and does not deteriorate with age. In the second place it is tasteless and odorless; the patient can continue its use without repugnance to the taste. It does not cause eructations or nausea and the most delicate stomach can tolerate it. It is prescribed by the leading physicians everywhere, and the grand results from its use as reported to us are almost incredible. Read what a few of our leading city physicians say of it, as given in interviews:

DR. JAMES T. YOUNG, 1336 New York Avenue:—"Terraline has promptly relieved a number of cases of Chronic Bronchial Catarrh that would not yield to other remedies."

DR. J. O. STANTON, 1344 G Street:—"I have prescribed Terraline in a large number of cases of Laryngitis, Bronchitis, and Incipient Phthisis, and am more than pleased with the result."

DR. Z. T. SOWERS, 1320 New York Avenue:—"I have prescribed Terraline in a number of cases such as are usually given Cod-Liver Oil, and as it has the double advantage of *no odor or taste*, can be given in those cases in which Cod-Liver Oil disagrees, with all the advantages of the latter, and with even increased benefit."

DR. A. Y. P. GARNETT, 1317 New York Avenue:—"Have prescribed Terraline as many as thirty times, and for almost as many forms of Bronchial and Pulmonary complaints, and fail to recall a single instance in which I did not see prompt and decided improvement in the patient."

DR. D. C. PATTERSON, 919 I Street:—"I am of the opinion that in Terraline we have a most valuable agent in the treatment of the class of cases for which Cod-Liver Oil is prescribed."

DR. P. J. MURPHY, Surgeon in charge of the Columbia Hospital:—"I have prescribed Terraline very often in the last year, both in and out of the Hospital, with grand results, and while I never write a certificate for a medicine, however good, am free to say that I see in Terraline the greatest remedy for the treatment of Bronchial and Pulmonary troubles ever brought to my attention."

We have hundreds of certificates from all parts of the United States which we will insert from time to time in the Medical Journals, where they legitimately belong.

℞ Terraline, ... ℥ xii.

Sig.: One or two teaspoonfuls, three or four times daily, in sherry wine.

The price of **Terraline** is One Dollar a bottle. A full size bottle for trial will be sent to any physician without expense except for express charges, which he must pay on receipt of it.

IMPERFECT CURES OF CONSUMPTION.

It has frequently been demonstrated that spontaneous cures of consumption take place. The demonstration consists in the post-mortem discovery of cicatrices, caseous and calcareous foci, and other evidences of previous destructive processes in the lungs of those who have died of some other acute malady and who had long been thought to be free from any pulmonary affection.

However, it has not been so generally known, although now a thoroughly established fact, that many cases are not perfectly cured; that is, incomplete calcification of the tuberculous tissue has taken place, leaving a centre of caseous or calcareous substance, with a periphery in which the tubercular process is still more or less progressive, though seemingly in a quiescent state.

The great danger to patients thus affected, as lately pointed out by Dr. Thomas Harris, M.R.C.P., of London, is that at any time the disease may take on an active form.

Any of the accidents of exposure that ordinarily induce pulmonary congestion or inflammation may light up the slumbering fires and precipitate a rapidly destructive tubercular consumption of the lungs. Or these imperfectly calcified foci may become the source of infection of the system with general acute miliary tuberculosis. What is the great lesson in practical therapeutics to be learned from this important pathological discovery? It is that those who have ever shown signs of incipient phthisis should be thereafter kept under skillful professional observation. Appropriate treatment should be continued until all physical signs of active disease completely disappear. They should live guarded lives thereafter, conforming to correct hygienic rules. But above all, whenever any symptoms of pulmonary disturbance appear, they should be at once put upon active treatment and continued until such symptoms have entirely passed away.

Now, what is the appropriate treatment? Let us listen to the learned A. Lutaud, of Paris, who says, "The fundamental basis of all rational therapeutics must be to restore the tone and reinforce the power of resistance of the tissues. The organism must be placed in a condition, not only to provide for daily needs and to resist vicissitudes of temperature, humidity, etc., but to enable it to resist the attack of enemies in the form of the pathogenetic microbes. It is, above all, necessary to prevent that devitalization of the tissues which renders them an easy prey to the marauding bacillus. Hence the efforts of therapeutists of all nationalities have been directed to the discovery and perfection of tonic and reconstituent preparations."

It is now a well-established fact in pathological science that the serum of pure, healthy blood is a sure and rapid destroyer of the germs of this disease. Hence the appropriate remedy is that which will most rapidly enrich the blood—the hypophosphites of lime and soda.

But this remedy will also promote the more rapid calcification of the diseased areas in the pulmonary tissues. Hence, it is entitled in a double sense to the claim of a SPECIFIC in this disease, first given it by the illustrious Churchill. The patient should be given McArthur's Syrup (a syrup of the chemically pure hypophosphites of lime and soda) from the time the disease is first suspected, with appropriate intervals of intermission, until he is perfectly restored, and this treatment should be resorted to during any marked departure from health thereafter. The McArthur Hypophosphite Co., Boston, Mass., will furnish you valuable evidence of the curability of consumption and a sample bottle of the syrup without expense, except express charges, if you wish to make a trial of it in your practice.

Farbenfabriken vorm. Friedr. Bayer & Co.'s
Pharmaceutical Specialties.

EUROPHEN.

This Product is formed by the action of iodine upon isobutylorthocresol. It possesses extraordinary value as a dressing in both simple and specific lesions. It has an agreeable odor and is, in all cases, a perfect substitute for iodoform. Europhen has been successfully employed by Drs. Petersen, Seifert, Szoldrski, Eichhoff and others, in the Dermatoses and many Inflammatory and Ulcerative Conditions, and has been given hypodermically in Syphilis. It is supplied in ounces.

PHENACETINE-BAYER.

As an Antipyretic, Analgesic, Anti-rheumatic and Anti-neuralgic, Phenacetine-Bayer is justly regarded as the safest and most effective of medicaments. In Acute, Inflammatory Fevers, Rheumatism, Neuralgia, Migraine, Bronchitis, Pertussis, Phthisis, and all affections in which fever, pain and restlessness, separately or together, are to be combated, it has an admirable influence. For INFLUENZA (or *"la grippe"*), Phenacetine-Bayer with Salol is our best remedy. It is supplied in ounces, in pills and tablets of 2, 3, 4 and 5 grains; and also in pills combined with Salol or Caffeine.

SULFONAL-BAYER.

Sulfonal-Bayer is a "pure hypnotic" because it gives a purely hypnotic action and produces no other effect. It is a "true nerve sedative" because its action continues after the remedy is discontinued. Sulfonal is used in all Insomnias, Insanity, and in all cases in which hypnotics are indicated. It is a *safe remedy*, and it does not give rise to a drug habit. Very reliable and effective, its action is slower than that of the narcotics; hence, care must be taken to give it as directed. It is supplied in ounces; also in tablets and pills.

ARISTOL.

In all Ulcerations, Skin Diseases, Lesions of the Eye, Ear, Nose, Mouth and other cavities; in Dysentary, Gonorrhœa, Ivy-poisoning, Burns, Scalds, Blisters and all external traumatisms, Aristol has shown itself to be a safe and effective remedy. It is also given (hypodermically), in Phthisis. It is used in ointments, powders, crayons, suppositories, oils, sprays, collodions, tampons, bandages, etc. Aristol Gauze is now widely used *in the place of Iodoform Gauze*, so long offensive to physicians. Aristol is supplied in ounces only.

DESCRIPTIVE PAMPHLETS FORWARDED ON APPLICATION.

W. H. Schieffelin & Co., New York.
